

Church Creek Drainage Basin Study Public Meeting

Project Overview:

The Church Creek Drainage Basin is located in the City and County of Charleston, South Carolina, the limits of which are defined in the City of Charleston Master Drainage and Floodplain Management Plan.

The Church Creek drainage basin drains a total area of nearly 5,000 acres located along the western side of the Ashley River. Historically the area was used for phosphate mines and timber and includes many wetland and marsh areas. Today the area has significant development with residential and commercial uses. The present city limits consist of the residential neighborhoods of Shadowmoss, Hickory Hill, Hickory Farms, Grand Oaks, Village Green, Forest Lakes and Canterbury Woods as well as some smaller infill areas. The Church Creek drainage system includes a network of ponds and channels that drain to the marsh area at the headwaters of Church Creek.

The City has contracted with Weston & Sampson Engineering to upgrade the basin hydraulic stormwater model and to make recommendations to mitigate flooding in the future. The study also includes a review of past studies as well as the development of recommendations that support these efforts associated with future development. That will include development standards, policies and physical infrastructure improvements that could be implemented to reduce the risk of flooding and property damage due to flooding in the basin. W&S and the City are interested in your comments as a part of this study. All comments will be reviewed to ensure that the Team is fully aware of not only large scale stormwater conveyance issues, but also localized drainage challenges as well. We appreciate your comments.

How to Submit Your Comments

Comments concerning the proposed Church Creek Drainage Basin Study can be submitted to Weston & Sampson by:

1. Dropping the completed form in the comment box at the sign-in table as you exit.
2. Mailing or emailing your comments to us at:

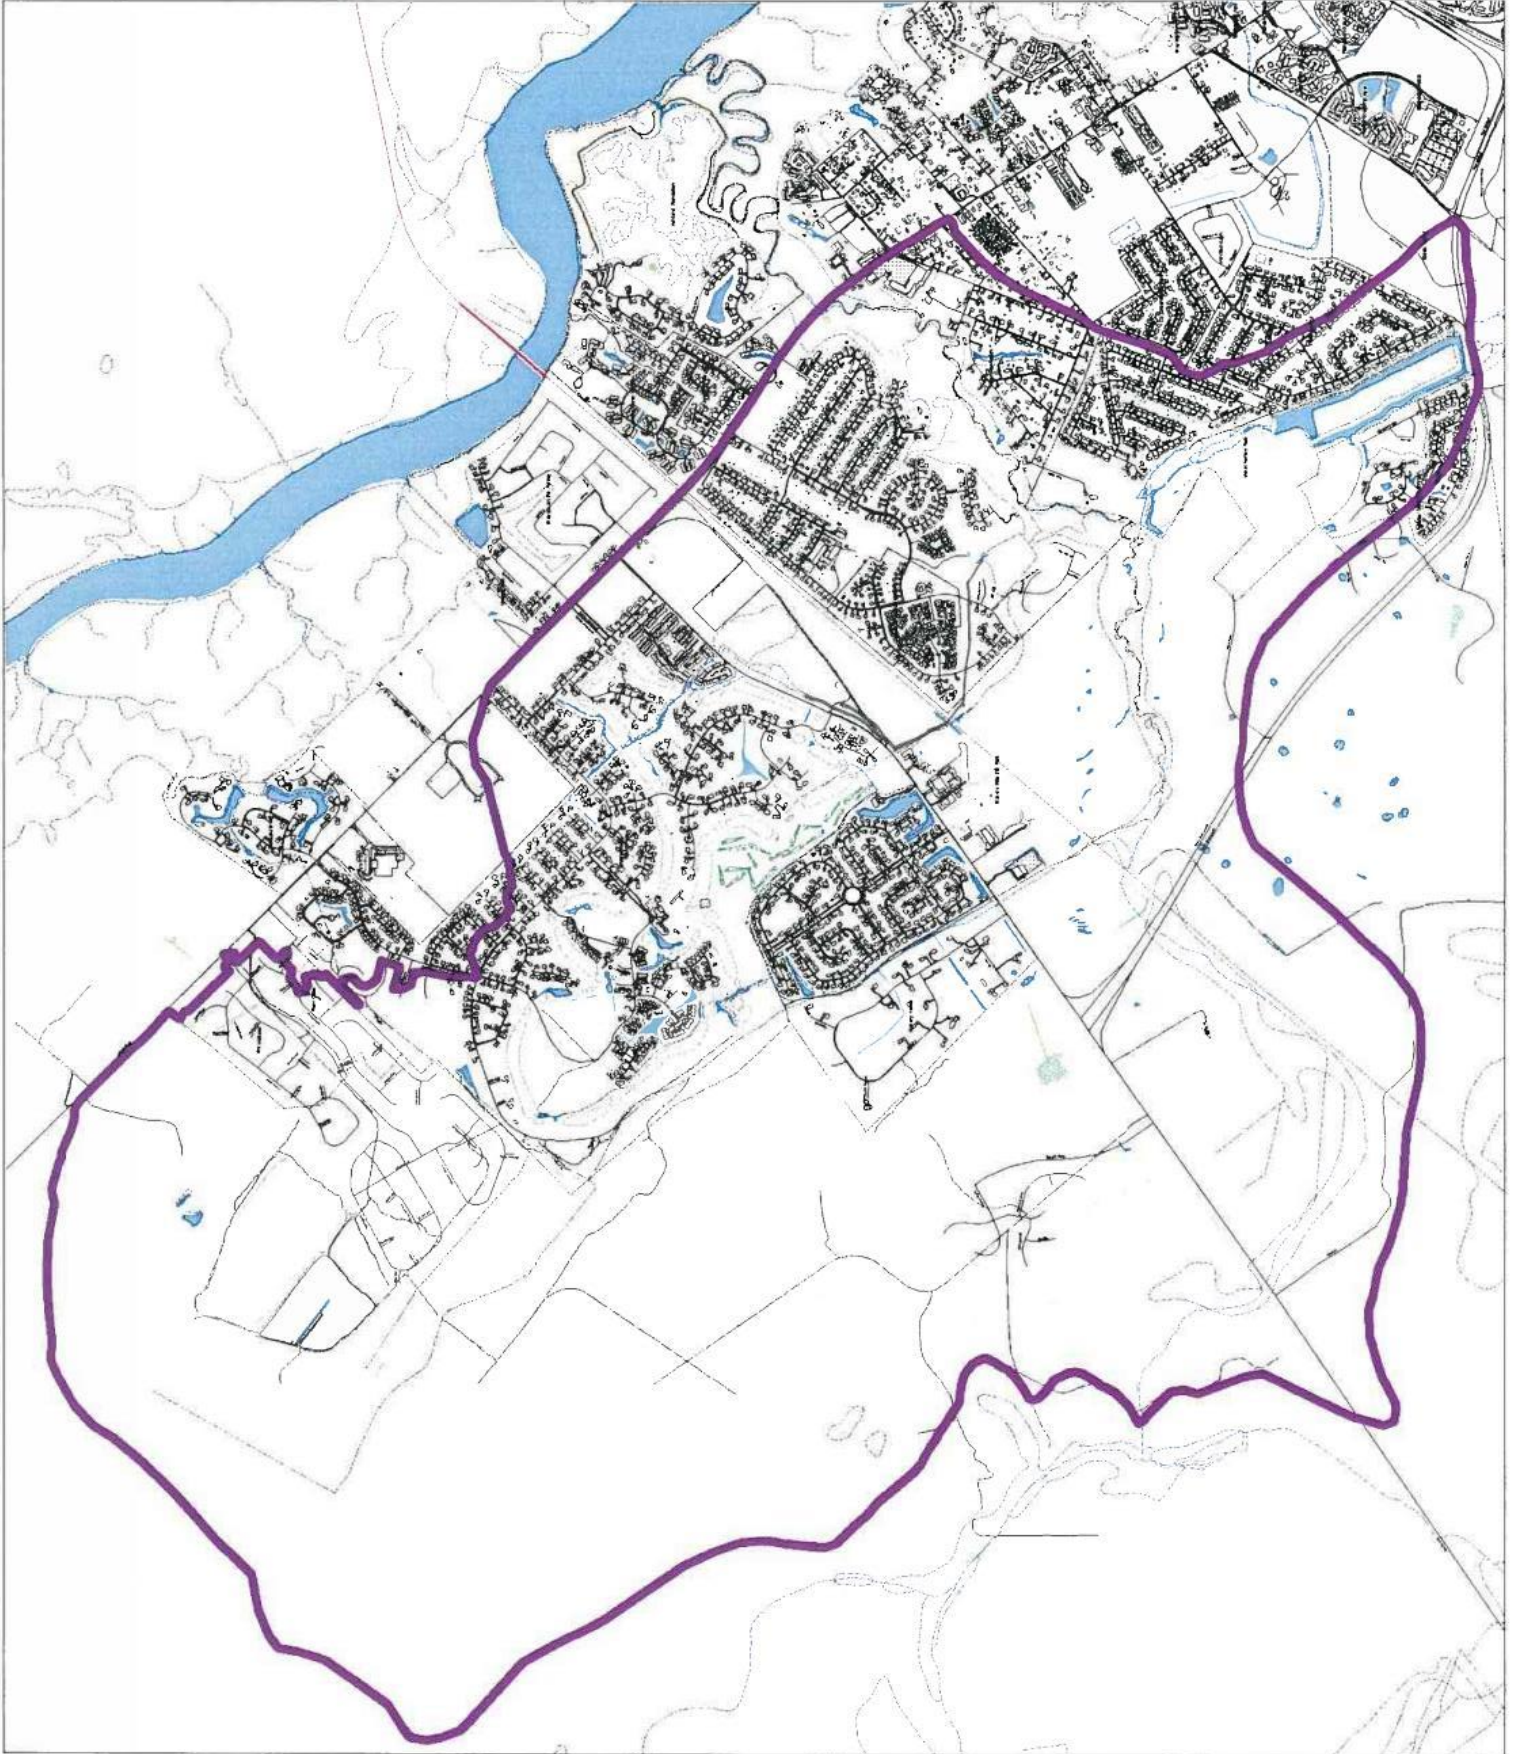

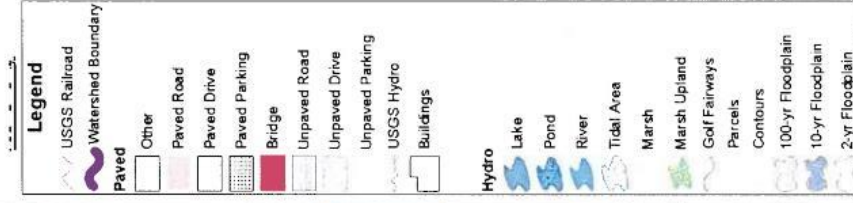

Weston & Sampson
672 Marina Drive, Suite 204
Charleston, SC 29492
Email: hornerL@wseinc.com
Copy to: hornerR@wseinc.com

Comments will be accepted until September 15, 2017. Thank you for your participation in this important process.
